

YOU ARE CHANGING LIVES

It has been a wonderful and busy season for BBQ Mission. The food lines are growing and there are many new faces each and every week. On one hand, we are so happy for the opportunity to share the love of Jesus with many, however, this means homelessness is also growing every week. Unfortunately, this is a very sad reality. With your support BBQ Mission is committed to feeding every person who stands in line for a meal.

The following story shows just one instance of the love of humanity being displayed recently at Grace Church. It was a typical Monday gathering with participants arriving early. By the time the food was ready, the line stretched around the parking lot and down the street. After serving over 300 meals the lunch had concluded. The food for the day had been served and clean up was underway when a father and his young daughter from Mexico arrived. While trying to explain there was no more food, a long-time homeless patron walked up with his extra plate of food. He was planning to take the meal to a friend who was sick. Instead, he handed the meal to the little girl. Her smile immediately told a story. Community is those with nothing, willing to give what they have to another in need. Sharing life and the love of Jesus is everything BBQ Mission and your support is about. Your partnership not only is providing a hot nutritious meal, but you are building community. **Thank you for impacting lives.**

Volunteers extend a friendly word of encouragement and labors of love as they set up and take down tables, tents and serve delicious meals. Currently, BBQ Mission is developing a new data platform to streamline the volunteer process.
